1. Coyote Creek Flood Protection Project Presentation to San Jose Parks Advocates

On Thursday January 23, 2020, Valley Water Directors Barbara Keegan and Richard Santos participated in a San Jose (SJ) Parks Advocates meeting of more than 30 attendees to provide details about the Coyote Creek Flood Protection project at the East San José Carnegie Library in downtown San Jose. The group requested the presentation on the Coyote Creek Flood Protection project with a singular focus on the impact to the parks that are along the nine mile stretch of the project.

Valley Water provided an update on the potential flood control alternatives, specifically, floodwalls, passive flood barriers, vegetated berms, and other options. Valley Water also sought and documented feedback from the SJ Parks Advocates members about impacts to parks that are along the Coyote Creek Flood Protection project areas of Watson Park, Roosevelt Park, William Street Park, Selma Olinder Park, Coyote Meadows, and Kelley Park.

City of San José Parks, Recreation and Neighborhood Services was in attendance and appreciated the revisions to the project and pledged to continue to work cooperatively with Valley Water as this effort moves forward to the design phase. Valley Water is scheduled to host public

meetings to provide an update on the progress of the Coyote Creek Flood Protection project in spring of this year.

For further information, please contact Rick Callender at (408) 630-2017.

2. Reclamation Schedules Santa Clara Valley Water District's Second Contract Amendment Negotiations

Valley Water is scheduled to meet with the Bureau of Reclamation (Reclamation) on January 29, 2020 to negotiate a proposed second amendment to Valley Water's Central Valley Project (CVP) Contract No. 7-07-20-W0023 (Contract). On January 22, 2020, Reclamation issued a news release announcing the scheduled contract negotiation session in Fresno, California.

The original Contract forms the basis for Valley Water's receipt and payments of annual CVP supplies through federal government facilities, primarily works of the CVP San Felipe Division. Because of CVP facility outages and other conditions which adversely impact delivery of CVP water supplies to Valley Water, such as San Luis Reservoir constraints, Valley Water requested an amendment to the Contract to effectively support delivery of Valley Water's CVP supplies through the State Water Project's (SWP) South Bay Aqueduct (SBA).

This second amendment would provide Reclamation the authority to deliver Valley Water's CVP supply to 'mutually agreed upon' points of delivery, principally the SBA by exchange for SWP water supplies. Historically, Valley Water was able to request temporary Reclamation approval for use of the SBA to deliver CVP water supplies to Santa Clara County, however, Valley Water was notified that temporary approvals would no longer be an option. Retaining the ability to use the SBA to deliver Valley Water's CVP supply, via amendment of the CVP Contract, is important for both operational flexibility and increased water supply reliability at Valley Water.

Both CEQA and NEPA review were completed for the second amendment to the Contract. Following Valley Water and Reclamation public negotiation, and upon mutual agreement of the proposed amendment language, Reclamation will submit the amendment for a public review period. Following public review and response to any comments received, the second amendment will be released and brought to the Board of Directors for execution.

For further information, please contact Jerry De La Piedra at (408) 630-2257.

3. Upcoming Rinconada Water Treatment Plant (RWTP) Shutdown

For the purpose of performing electrical tie-in work and backup power generator system testing (required to keep the RWTP Reliability Improvement Project (RRIP) progressing) the RWTP and West Pipeline (WPL) will be shut down for four (4) days, from January 27 to January 30, 2020. It is anticipated that both the RWTP and WPL will be returned to service by the end of the workday on January 31, 2020.

WPL retailers impacted by the upcoming outage are the cities of Santa Clara and Sunnyvale, the California Water Service Company, and the San Jose Water Company. The impacted retailers will use their groundwater and/or alternate supplies to meet demands during the plant shutdown. Customers may notice a change in water characteristics and pressure during the shutdown. The above stated shutdown schedule has also been communicated to the retailers and Valley Water will continue to send periodic updates and reminders.

Construction activities at RWTP are taking place during daytime, weekday hours, and with some extended hours before and during plant shutdowns. Plant neighbors are updated regularly through Valley Water's blog, social media and neighborhood meetings.

For further information, please contact Bhavani Yerrapotu at (408) 630-2735.

4. Valley Water in Compliance with Updated CA Air Resources Board Portable Equipment Regulations

In 2018, the CA Air Resources Board (CARB) updated regulations applicable to portable/mobile equipment with the aim of reducing emission of diesel exhaust. Over the past decade CARB has compiled an extensive database on diesel engine emissions data. Each engine that appears in CARB's database is placed into one of four categories, Tier 1 through Tier 4. A Tier 1 engine being an older, more polluting engine and Tier 4 engine being a newer, cleaner burning engine.

In their revised regulations CARB provided the regulated community one of two ways to reduce their overall diesel emissions. The first approach would have Valley Water phase-out Tier 1 through Tier 3 engines for newer, clean-burning Tier 4 engines over several years. This phase-out approach required all Tier 1 models to be retired by January 2020, Tier 2 models by January 2022, and Tier 3 models by January 2027. To take this approach, Valley Water would be required to provide documentation demonstrating that Tier 1 through Tier 3 models were being replaced with Tier 4 engines. The second approach to comply with the CARB regulation proposed was to simply retire all older Tier 1 through Tier 3 engines with current Tier 4 engines, and this is the approach Valley Water took.

Valley Water has 16 engines registered under CARB's Portable Equipment Registration Program. Over the past few years the Equipment Management Unit has replaced several old portable equipment units with cleaner burning Tier 4 engines. Given that our inventory of portable equipment consists of all Tier 4 engines, Valley Water has complied with the 2018 CARB requirement to reduce diesel emissions.

For further information, please contact Tina Yoke at (408) 630-2385.

2016 HOND CR-V EX AWD 4D UTV 4-2.4L Gasoline Gasoline Direct Injection Silver

Estimate based on MOTOR CRASH ESTIMATING GUIDE and potentially other third party sources of data. Unless otherwise noted, (a) all items are derived from the Guide ARG4463, CCC Data Date 12/02/2019, and potentially other third party sources of data; and (b) the parts presented are OEM-parts. OEM parts are manufactured by or for the vehicle's Original Equipment Manufacturer (OEM) according to OEM's specifications for U.S. distribution. OEM parts are available at OE/Vehicle dealerships or the specified supplier. OPT OEM (Optional OEM) or ALT OEM (Alternative OEM) parts are OEM parts that may be provided by or through alternate sources other than the OEM vehicle dealerships with discounted pricing. Asterisk (*) or Double Asterisk (**) indicates that the parts and/or labor data provided by third party sources of data may have been modified or may have come from an alternate data source. Tilde sign (~) items indicate MOTOR Not-Included Labor operations. The symbol (<>) indicates the refinish operation WILL NOT be performed as a separate procedure from the other panels in the estimate. Non-Original Equipment Manufacturer aftermarket parts are described as Non OEM, A/M or NAGS. Used parts are described as LKQ, RCY, or USED. Reconditioned parts are described as Recond. Recored parts are described as Recore. NAGS Part Numbers and Benchmark Prices are provided by National Auto Glass Specifications. Labor operation times listed on the line with the NAGS information are MOTOR suggested labor operation times. NAGS labor operation times are not included. Pound sign (#) items indicate manual entries.

Some 2020 vehicles contain minor changes from the previous year. For those vehicles, prior to receiving updated data from the vehicle manufacturer, labor and parts data from the previous year may be used. The CCC ONE estimator has a list of applicable vehicles. Parts numbers and prices should be confirmed with the local dealership.

The following is a list of additional abbreviations or symbols that may be used to describe work to be done or parts to be repaired or replaced:

SYMBOLS FOLLOWING PART PRICE:

m=MOTOR Mechanical component. s=MOTOR Structural component. T=Miscellaneous Taxed charge category. X=Miscellaneous Non-Taxed charge category.

Re: Claim – L1900007

Dear Mr. Sotoodeh,

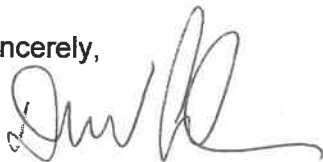

We have reviewed your claim and reached the conclusion that the Santa Clara Valley Water District is not responsible for the property damages that occurred on November 28, 2019 as a result of the fallen trees.

We are unable to substantiate this claim for damages and will therefore be recommending to our Board of Directors that the claim be denied. Risk Management has performed research and determined the District is not responsible for the damage due to: (1) there was no negligence on the part of the District and (2) the trees in question are not on District property.

This item is scheduled to be heard at the January 28, 2020 Board meeting which begins at 6:00 pm. In the event of a date change, I will provide you with advance notice. You can also monitor the Board of Directors meeting schedule and associated agenda items at: <https://scvwd.legistar.com/Calendar.aspx>.

If you have any questions, please contact me at (408) 630-2213.

Re: Claim – L1900006

Dear Ms. Jones,

We have reviewed your claim and reached the conclusion that the Santa Clara Valley Water District is not responsible for the damages to your vehicle that occurred on November 25, 2019.

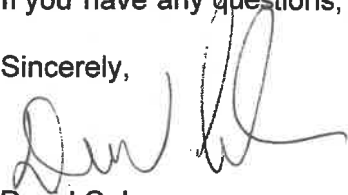

We are unable to substantiate this claim for damages and will therefore be recommending to our Board of Directors that the claim be denied. This recommendation is based on our conversations with you and the District employee, the lack of paint transference to either vehicle, and measurements taken of your vehicle and the District vehicle. The Risk Management Unit concludes that the District vehicle did not cause damage to your vehicle.

This item is scheduled to be heard at the January 28, 2020 Board meeting which begins at 6:00 pm. In the event of a date change, I will provide you with advance notice. You can also monitor the Board of Directors meeting schedule and associated agenda items at:
